

We have the right to protect our lives.  
We have the duty to protect our children.  
HIROKAWA Ryuichi, DAYS JAPAN chief editor.

We need to monitor vegetables and milk in  
a proper way, and reduce internal  
radiation exposure as much as possible.  
KUROBE Shinichi, pediatrician.

Is this vegetable safe  
for children to eat?  
Is this milk  
safe to drink?

► Urgent support to provide food radiation detectors ◀  
We need to monitor food to keep people  
safe from radioactive fallout after  
the disaster of Fukushima nuclear power plant accident

# Fukushima Children's Fund

未来の福島こども基金 Fukushima Children's Fund

Left: Mr. Lehman, Chief of the Berlin Citizens' Radiation Monitoring Station in then West Germany. This station was established by citizens with the funds raised by concerts. They check sweets before the Christmas season, flour brought from various places after the harvest, and other foods sent by citizens and farmers as well.  
Right: This woman is shopping while making use of the information of the newsletter issued by the monitoring station. In Berlin  
Photos taken by HIROKAWA Ryuichi, Nov. 1987.

## How is it measured?

Fukushima Children's Fund opens the citizens' radiation monitoring station in Fukushima city, and installs handy food radiation detectors. The station is to be managed mainly by Citizens' Radioactivity Measuring Station.

We are going to develop the monitoring stations by installing more accurate nuclear detecting instruments. We aim to create a monitoring system of citizens, by citizens and for citizens.

### Advisors:

MUKAI Yukiko (Chernobyl Children's Fund, Japan)  
MIYANISHI Izumi (HIROKAWA Ryuichi Photo Exhibition Office)  
HIROKAWA Ryuichi (Advisor of Chernobyl Children's Fund, Japan)

With your donation, we buy food radiation detecting instruments and run the monitoring stations.
